

Putnam County Web Services

As of September 15, 2015, the Putnam County Clerk's office is offering XML based web service for accessing County official records. Those wishing to electronically access Putnam County official records web services can do so by visiting <https://www.triedata.com> to learn more about connectivity requirements. Our offering includes both free as well as subscription based web services. All users are required to register an account and accept the terms of our publishing agreement before accessing our publisher offerings.

Currently available XML transaction sets include all official records (data portion) available on our publicly available web site. We will be adding additional data sets in coming days. The system supports both SOAP as well as RESTful protocol/architectural styles.

Currently listed services include Official records basic search, Official records by Instrument number, Official records by book and page, official records by legal description, mortgage by name and lien by name.
